

The following is an email response that I received from the program director/owner of two radio stations in Carson City Nevada.

There had been an ad in the R and R about positions open for on air positions. I sent an email with my information and ideas. With my yahoo email my signature states that I was a volunteer with the Clinton campaigns, yet also for Ross Perot and his United We Stand America.

The owner/program director proceeded to call me a dumbass, hardly professiona.

I copied and pasted the email response.

Shaun:

Thank you for your email. Particularly, thank you for being a part of the Clinton-Gore (whatever). My son's life (military) is at risk because of people like you who helped those two. They also stole thousands of dollars from me in taxes.
You are a dumbass in my opinion
